The rally was hit by the forces of repression

#### STRUGGLE FOR OUR MODERN NEEDS. KEEP YOUR HANDS OF THE UNIONS.

he class trade unions in Greece have long staged major strikes and rallies against new government measures and the development bill, which ensures even greater capital profits by crushing all workers' rights.

Continuing the work left behind by its predecessor SYRIZA, the New Democracy government passed a series of measures to boost the profitability of the capitalists.

Due to the development bill voted, the sectoral collective agreements are practically removed, after the overwhelming blow to collective negotiations in previous years. Employers and the state are given the right to intervene and damage the trade union movement.

In this endeavor, the capital and their parties have worthy allies and supporters. The trade union mafia, that is, the majority in the leadership of the GSEE, has shown that it has agreed with the government in all respects, and is even pioneering the implementation of measures that benefit the capitalists in the workplace.

From the very first moment, PAME started a wide-ranging debate in the workplace, calling on workers to rise against the new attack.

Hundreds of unions, dozens of Federations and Worker Centers responded with a strike on September 24 and October 2 against the government's bill, despite the wretched efforts of the majority in the GSEE leadership to respond without any action.

From the strike in Athens on 24/09

## UNIVERSAL, PUBLIC, COMPULSORY SOCIAL INSURANCE FOR ALL

The New Delhi government continues and escalates the attack on Social Security by securing new areas of monopoly profitability.

Greater relief for employers and the state from the burden of social security contributions and the conversion of Social Security into individual employee responsibility, faithfully serving the EU, opens the door to its privatization.

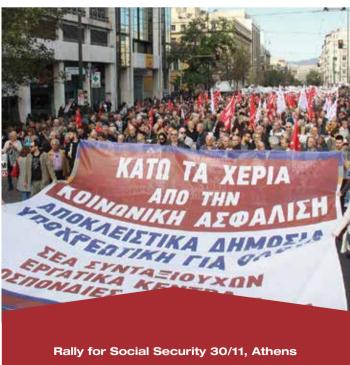

Under the insurance bill, the government seeks to turn workers into "investors" after their money is gambled on the Stock Exchange without any guarantees of employee hassle and deductions.

Class trade unions in Greece have organized gatherings, debates, meetings, General Meetings in every city, workplace, in order to give a decisive response to the attack on Social Security prepared by government and employers.

The first decisive response was given with the big rallies on 30/11 in all the cities of Greece.

From the meeting of Trade Unions, Federations and Social Security Centers

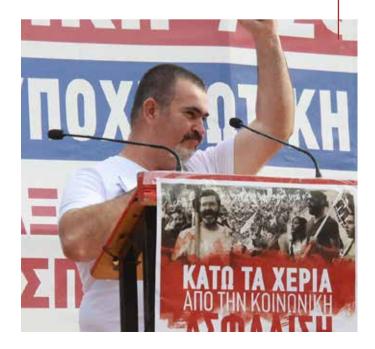

Poster of the Trade Unions, Federations and Worker Centers for the rally on 30/11

Olivier Mateu, Secretary General Secretary — Of the Regional Trade Union Center, expressed hisgreeting at the rally at PAME's large gathering in Athens, expressing class internationalist solidarity with French workers.

On April 03, 2019, 20 years completed since the creation of PAME. On the same day, an event full of enthusiasm was held in honor of the 20th anniversary of the creation of PAME. The event bore the stamp and footprint of PAME's 20 years of militant life and action, its struggles, solidarity and internationalism, the trade unions' struggle in Greece for "workers' unions not of employers"

The event was attended by dozens of trade unionists from foreign trade unions, who attended the World Trade Union Presidential Council meeting that was held in Athens.

In his Speech, Giorgos Perros, on behalf of the executive committee of PAME noted:

"Exactly 20 years ago, on April 3, 1999, with the participation of hundreds of trade unionists from dozens of unions, ALL WORKERS MILITANT FRONT (PAME) was launched as a need of times, opening a new page on the class trade union movement, a continuation of the traditions and values of the working class of our country (...) .. The steps that have been recorded in PAME's activity since 1999, its roots in many sectors and workplaces, the pioneering action of the forces that constitute PAME in the workers' and people's struggles, strikes, small and big fights in recent years developed without compromise the slogan "law is the right of the worker" are the soil to grow to continue the counterattack of workers along with those affected by the dictatorship of the monopolies. (...) ..

True to the principles of proletarian solidarity, it had a solid front against xenophobia, racism and fascism. From the first moment it organized the solidarity and the fight for the rights of refugees, the uprooted from imperialist wars and interventions. It was firmly in the forefront of organizing migrants into the unions and of the common struggle of Greeks and migrant workers against the capital, so it is permanently targeted by the employers and its hounds, the Golden Dawn members. PAME, loyal to the principles of internationalism, became a member of the WFTU in 2000. (...)

Today there are all the requirements - productive, scientific and technological - for a pro-peoples development, for a decent life, jobs with rights. We are the ones who produce all the wealth!

#### **WE CONTINUE!**

For the rights of our class, because without us a gear doesn't turn! Long live the 20 years of PAME! "

## 2020 Years of PAME/E

Salutation Speeches were given to the event was given by the Trade Unionists from foreign Trade Unions.

Michael Mzwandile, President of WFTU from South Africa

Ulises Guilarte de Nacimiento, Head of the Regional Office of Latin America of WFTU and General Secretary of CTC Cuba

Jamal Kadri, head of the Regional Oficce of Middle East of WFTU

Pampis Kyritsis, head of the European Regional office of WFTU

In March 2019, during the scheduled 37th GSEE (General Confederation of Greek Workers) Congress the confrontation between class unions and the forces expressing employers' interests was expressed more than ever.

Over the years, the majority in the GSEE leadership have stood by the governments signing the laws that have abolished Collective Labour Agreements, signing dramatic pay cuts. All these years they have cultivated the logic of class peace and collaboration with the employers. They have openly helped the SYRIZA government to attack the right to strike, describing it as an outdated form of struggle.

However, the inability of the majority in the GSEE leadership to play an even more decisive role in promoting monopolies' plans inside the unions, has forced the employers to play this role themselves.

At the GSEE Congress, as well as at the Congresses of the major Federations and Regional Trade Unions, there were widespread incidents of fraud, the presence of police and of employers within the unions. Henchmen, illegal representatives, managers and business executives presented themselves as workers' representatives demanding that the Conference be held to serve the interests of employers.

G. Perros at the Congress of Regional Trade Union of Thessaloniki, reveals and denounces the presence of secret police agent

Henchmen and fake representatives at the Congress of the Federation of Private Employees of Greece.

workers mock the fake representatives at the Congress of The Federation of Private Employees of Greece

Protest of the unions at the Congress of the Federation of Private Employees. The workers demanded that a genuine Congress of Employees take place far from employers, police and illegal representatives.

14/03, Protest of Trade Unions-Federations and Regional Trade Unions, at the Congress-parody of GSEE in the city of Kalamata Intervention of Trade Unions at the fiesta of GSEE

16/03, militant massive protest outside the hotel where the opening of the Congress was scheduled to take place

Press Conference of Federations and Trade Unions in Kalamata

03/04, rally of trade unions in the island of Rhodes, Second attempt of the congress-parody of the trade union mafia.

The state, the employers and the majority of the GSEE, did not only try to hold a Congress of illegal representatives and employers who pretended to be workers. They attacked the trade unions and the workers who gave and are still giving the fight for workers' trade unions. The ETUC, whose member is GSEE, has once again proved its role in this dirty attack.

In a common announcement, the European Trade Union Confederation (ETUC) and the International Trade Union Confederation (ITUC), instruments of the multinationals, of NATO-EU in the trade union movement, call "criminals" the dozens of representatives at the GSEE Congress, the Presidents of the Federations, of Regional Trade Unions in Greece.

They reproduce the fascist calls for repression and persecution against Greek militant Trade Unionists.

## PAME HOSTED THE MEETING OF THE PRESIDENTIAL COUNCIL OF WFTU IN ATHENS

On 3 and 4 April it took place in Athens the two-days Summit of the Presidential Council of WFTU.

The opening was made by the President of the World Federation of Trade Unions Mzwandile Michael Makwayiba, giving the key slogan of the Presidential Council "With internationalism, unity and class struggles we are moving towards the future". Then the General Secretary of the WFTU, George Mavrikos presented the opening statement and the report of the previous year's action.

# "May 1st, 2019 against capitalist exploitation antiimperialist wars with trade unions of workers and not of the governments and employers."

ith lively massive strikes, the Greek working class honoured again this year the 1st May. This is the day when workers all over the world honour the dead people of their class, their heroic workers-popular struggles, their bloody conquests in the untranguil struggle to abolish exploitation of man by man.

The massive and militant participation in PAME's rallies for the 1st May, with many workers and trade unionists who came for the first time, was the best response to the anti-popular policy of the SYRIZA government and to the business groups that are strengthening the exploitation for the big majority of our people, against US - NATO - EU aggressive policy.

Their plans to transform the unions into mechanisms to promote monopolies' strategy will not pass.

The guarantee that they will not succeed is PAME's 20-year course and action. The stable class struggle line, the struggle for unity of workers, regardless of employment relations, against employers and state, are our legacy to take steps forward, for strong organization in every workplace to impose our rights.

There is a way out! With the working class at the forefront, in alliance with small farmers and professionals, we are moving forward for our future, for the great struggle for the liberation of workers and the oppressed by the bonds of exploitation! To take our own path of development, which will have as its sole motive the satisfaction of modern popular needs. This is the historic message of 1st May, that no matter how much the bosses, governments and trade union mafia try, we will not allow to forge it.

#### Proletariat of the world, unite!

#### **Athens**

PAME's rally of 1st May in Athens.

#### **Athens**

## Piraeus -

## Σάμος -

A loud response was sent to the unionism controlled by employers-government, the trade union mafia within GSEE.

The small gathering of leadership team in Athens held by GSEE - AD-EDY - Regional Trade Union of Athens confirmed that this is a workingclass aristocracy cut off from workers and their problems, they are not supported by real workers.
