SOLIDARITY WITH PALESTINE AT THE HEART OF TRADE UNION ACTION

The new missile attack by the murderous Israeli state on Iran and the ongoing massacre in Palestine are at the heart of trade union action in Greece. With demonstrations, concerts, rallies the unions demand that the genocide of the Palestinian people must stop now and the government must cut all ties with Israel.

Stop any involvement of Greece in imperialist plans and wars.

There was also a mass mobilization of pensioners at the Ministry of Finance and a large demonstration in the city of Kalamata, two years after the deadly shipwreck in Pylos. A crime that cost the lives of dozens of migrants and the trade unions are demanding that all the responsible to be punished.

The unions continue their action with new initiatives.
