THE NEWSPAPER OF THE TRADE UNIONS

**WE ARE HUMAN BEINGS  
NOT MACHINES**

No to 13-hours  
workday

## **WE ARE HUMAN BEINGS, NOT MACHINES NO TO 13-HOURS WORKDAY**

With mobilizations against the country's involvement in the imperialist war and the multifaceted expression of solidarity with the people of Palestine, the action of the trade unions continues

At the same time, the workers' reaction to an unacceptable bill brought by the government, which, among other things, allows 13-hour work for the same employer, is being prepared

Sectoral mobilizations and strikes continue, for the signing of Collective Labour Agreements, against dismissals, etc.

In the past days some important international meetings were held on the need to coordinate the action of trade unions in Europe

We continue the struggle with the aim to have mass, militant protests and to get results in participation, organisation in the unions, uniting.
