## **END THE INVOLVEMENT IN AND SUPPORT OF THE GENOCIDE OF THE PALESTINIAN PEOPLE**

Greek trade unions have continued their actions throughout the summer to stop the country's involvement in imperialist wars, to express their solidarity with the Palestinian people, to demand health and safety measures in the workplace, and to prepare a militant response to the government's unacceptable bill that legislates a 13-hour working day. Public sector unions have also mobilised against the new disciplinary law introduced by the government aiming at silencing workers' struggles.

The massive and militant mobilisations at the Port of Piraeus by the dockworkers in COSCO and their union ENEDEP, which stopped a shipment of military equipment destined for the murderous state of Israel, as well as the mobilisation against the arrival of the cruise ship Crown Iris that was carrying IDF murderers, show the way forward for us to continue and escalate our actions.

Workers will not become accomplices of the murderous state of Israel and its allies—the USA, NATO, and the EU. We will not allow ports and infrastructure to become instruments of war for the slaughter of people by the imperialists. We will not allow Greece to become a holiday destination for war criminals.

END the involvement in and support for the genocide of the Palestinian people.

No cooperation of any kind with the murderous state of Israel
